| 2007 Estimated Totals - Virginia | | | | | | | | | Investment : \$ 4,679.778 | | | | Total Job Impact: | | | | | | 5,109 | |
| The "Current Estimated Totals - Virginia" reflect VNDIA's best projections of the investment and personnel impacts to be experienced by the Commonwealth from BRAC 2005 actions. The difference between the "Total Job Impact" and the total in the "Working Totals" line reflect the unavailability of updated personnel projections from one source. | | | | | | | | | | | | | | | | | | | | |

- Current Personnel Source Notes:**
- *** Total Current Personnel may not be mathematical total of military, civilian and students since not all installations break out the total inbound personnel from BRAC actions by those categories. Also, the Total Current Personnel may reflect a larger number of total gains because community/installations have not reported "net" gains and losses from BRAC actions.
